

KENNETH CHÉVEZ

Email: k.chevezramirez@gmail.com

Location: Alajuela, Costa Rica

OBJECTIVE

Software Engineer with over 11 years of experience developing applications, seeking to deepen expertise in modern web technologies and apply self-acquired knowledge in a professional setting.

EXPERIENCE

Senior Backend Developer

Truenorth | Escazú, San José

Aug 2021 – Present

- Developed and maintained REST API microservices, supplying critical data to both unison.com and the Salesforce platform.
- Enforced code stability and quality standards through the implementation of comprehensive unit testing.
- Optimized business workflows by implementing serverless, event-driven processes.
- Streamlined PDF generation by integrating SQS queues and Lambda functions to process critical business data.
- Developed a critical financial health service to pre-qualify customers and inform loan application eligibility.

Senior Backend Developer

Advision Development | Santa Ana, San José

Feb 2019 – Aug 2021

- Developed and deployed a scalable microservices architecture to support high-traffic Sports Betting Review platforms (e.g., sportsbookreview.com, oddstrader.com).
- Built a dedicated system to automate the download, resolution, and storage of critical data from third-party services.
- Executed a full data and application migration from a European to an American cloud region, optimizing infrastructure costs and reducing latency.

Systems Analyst and Developer

Bac Credomatic | San Pedro, San José

Aug 2015 – Feb 2019

- Designed and deployed client-facing dispute systems that streamlined the process for filing card transaction claims.
- Ensured compliance by modifying interchange systems to align with new brand specifications (Visa, Amex, Mastercard).
- Designed and implemented reusable external services to facilitate integration with partner systems.

Developer

Inversiones Los Síncis H.G.R S.A | Santa Ana, San José

Jan 2015 – Apr 2015

- Conducted thorough analysis and subsequently developed a web-based ERP solution to centralize and optimize company resource management.

System Implementer

PBS | Santa Ana, San José

Nov 2014 – Dec 2014

- Successfully deployed an electronic ticketing system across all Banco Popular branches.
